

[HOSTAFRICA acquires Clickworks Internet as COVID increases demand for ICT](#)

***Cape Town–HOST AFRICA (Pty) Ltd, trading as HOSTAFRICA, has acquired Clickworks Internet Ltd, effective 1 December 2020, continuing its rapid expansion despite a tumultuous year and persevering through the current adverse economic climate.***

Clickworks Internet is a web hosting company also based in Cape Town, South Africa. Jonathan Oaker, Director of Clickworks Internet says, “The COVID-19 pandemic has presented us with significant challenges but has also made it clear that the e-commerce and the digital revolution is here to stay. Massive growth in users going online saw us unable to keep up with the demand so, in order to cater for all our clients’ needs, I made the strategic decision to be acquired by a larger hosting company.”

Oaker will stay onboard to ensure a smooth transition. He adds, “I feel excited about the benefit of the acquisition to our clients. HOSTAFRICA being the number one hosting provider in South Africa, we know our clients are in good hands with support from their knowledgeable and friendly staff.”

This acquisition brings Clickworks Internet clients HOSTAFRICA’s world-class service and client support, powerful servers, and considerably faster network speeds.

Michael Osterloh, Managing Director of HOSTAFRICA says, “We are very fortunate to be in a position where we can support thousands of businesses during the COVID-19 crises as they’re forced online years ahead of their time to survive.”

“I founded HOSTAFRICA not only to meet the substantial demand for cloud services in South Africa but to do it with an unparalleled dedication to supporting our clients who need them. This will remain the way we do business regardless of how many companies we acquire,” says Osterloh.

## About HOSTAFRICA

As one of the first cloud services providers in South Africa, HOSTAFRICA is an industry leader named after their vision to uplift Africa through cloud technology and outstanding service. The established hosting company offers a variety of affordable website hosting services, VPS, cloud servers (locally and globally), and dedicated servers. Since its inception in 2015, the HOST AFRICA (Pty) Ltd family has grown to include seven Hosting brands. For more information, visit our [website](#) or give us a call.
